

GB-A8/A9 SERIES

ALL IN ONE STREET LIGHT

FEATURES OF GLORY SERIES

- Glory series light features all designs in one, equipped with double-sided solar modules and powerful lighting, which can maximize the utilization of light energy. Including PIR/microwave motion sensors and integrated intelligent controllers entering the design.
- The design of bilateral distribution boards makes them suitable for remote areas and areas without electricity supply.
- Deep cycle batteries are designed for 2000 charging and discharging times.
- Operating time: With the intelligent model enabled, it can operate for 10 days during rainy weather
- The power range is between 30W and 150W.

ALL IN ONE STREET LIGHT

Glory series combines cutting-edge technology with efficient photovoltaic modules

- According to customer needs, a variety of flexible design, can meet more scenarios.
- The use of new lithium iron phosphate batteries, higher stability, higher battery density.
- Easy maintenance, installation and replacement of parts, long service life. Can achieve intelligent unmanned management.

Efficient Controller

Motion Sensor

Superior Outdoor LED

Bifacial solar panel

Conversion Rate up to 30%

25 Years Lifespan

Model	Nominal Power	V / W	LiFeO4	Qty	CCT	LM
